

 C:\WINDOWS\py.exe

```
Welcome to the FSX flap speed generator
Press enter to continue
the available aircrafts are: B737-800, B747-400, B777-300, A321, A330-300, A340, A380-800
Type in the aircraft you are flyingB747-400
enter F1 , F5 , F10 , F20 , F25 , F30 for max flap speeds
enter flap speed F10
240 knots
Press enter to exit
```

This is a Command Line Interface Multiplication Quiz, written in Python 3, which outputs the maximum speed the plane could handle with that particular flap setting. For example, if you select B747-400 and then you request for F5 (Flap5), the output should be '240 knots'.
